In conversation with Granma, the Cuban Minister of Energy and Mines Vicente de la O Levy, explains how the country is working with the highest priority to strengthen the National Electric System, in order to expand generation capacities with sustainable matrices, and eliminate chronic blackouts.

On Saturday, Cuba initiated the installation of solar energy storage batteries at four electrical substations, marking a significant step in addressing its energy challenges. These Battery Energy Storage Systems (BESS), also referred to as "concentrator units," are being placed at Cueto 220, Bayamo.

Yet Cuba's power outages increased by 23% in 2023 despite adding 450MW solar capacity. What's really going wrong?

Cuba currently operates 186 renewable parks generating 25% of its electricity. But here's the kicker – less than 15% have proper energy storage systems. "We're basically throwing away.

While Chinese companies like BYD and CATL dominate Cuba's battery imports, local innovators are punching above their weight. The University of Havana's nickel-zinc battery prototype (using mined local nickel) could cut costs by

30%. Meanwhile, Canadian firm SolarBank recently partnered with Cuban.

How does 6Wresearch market report help businesses in making strategic decisions?

6Wresearch actively monitors the Cuba Battery Energy Storage System Market and publishes its comprehensive annual report, highlighting emerging trends, growth drivers, revenue analysis, and forecast outlook. Our.
