# What is the New Zealand Energy Storage Project

## Overview

---

Beca is transforming energy storage in New Zealand with the Glenbrook BESS project, which will power several thousands of homes and support the energy transition to renewable sources.

Beca is transforming energy storage in New Zealand with the Glenbrook BESS project, which will power several thousands of homes and support the energy transition to renewable sources.

Meridian Energy, a New Zealand state-owned energy company, has completed the development of its 100MW/200MWh 2-hour duration Ruakākā battery energy storage system (BESS), which it claims is the country's first utility-scale BESS. Construction of the BESS, located south of Whangārei, the.

In a major step forward for New Zealand's renewable energy future, Genesis Energy has commenced construction on a 100 MW / 200 MWh Battery Energy Storage System (BESS) adjacent to the iconic Huntly Power Station. As lead designer, our strong technical expertise and agile problem-solving to design.

The Glenbrook Battery Energy Storage System (BESS) project is tackling Aotearoa New Zealand's electricity capacity and supply quality challenges in South Auckland. By boosting renewable energy flexibility, it will deliver reliable electricity to thousands of homes, enhancing the stability of the.
