

ContainerPower Energy Solutions

Wind power costs for communication base stations in Ethiopia

Overview

Are there power stations in Ethiopia?

This page lists power stations in Ethiopia, both integrated with the national power grid but also isolated ones. Due to the quickly developing demand for electricity in Ethiopia, operational power plants are listed as well as those under construction and also proposed ones likely to be built within a number of years.

Why is China laying a gas pipeline to Djibouti?

An 800 km pipeline from a gas field to Djibouti is being laid by a Chinese company in order to export Ethiopia's gas resources cheaply to China, but there are no plans to use these resource for the benefit of Ethiopia itself yet.

Are power plants under construction or in project implementation phase shown?

Power plants under construction or in project implementation phase are not shown, only the planned ones. Most entries came from the Ethiopian Power System Expansion Master Plan Study, EEP 2014 and the Ethiopian Geothermal Power System Master Plan, JICA 2015.
