Standard 40ft containers

Overview

What is the power source in Zimbabwe?

The power source in Zimbabwe is sourced from local generation and imports. Local generation comes from Kariba Hydropower, Hwange coal-fired power Station, and three small thermal power plants. Domestic generation comes from Kariba Hydropower, Hwange coal-fired power Station, and three small thermal power plants. Supplementary power is imported from Mozambique, Democratic Republic of Congo (DRC), and Zambia.

What are Zimbabwe's energy projects?

The Government of Zimbabwe has prioritised energy projects as one of the key enablers to economic growth and development. The prioritised projects include new plants and the optimization of existing plants and are expected to add additional power to the grid as follows:

How much power does Zimbabwe import?

Currently power imports stand at around 400 MW. Industry and Commerce have struggled partly due to acute power shortages being experienced in the country. The Government of Zimbabwe has prioritised energy projects as one of the key enablers to economic growth and development.

What is sustainable economic growth in Zimbabwe?

Sustainable economic growth is anchored on affordable, reliable and stable supply of energy to industry and households. Zimbabwe is currently facing power shortages with estimated reliable generation of about 1049 MW against an estimated suppressed peak demand of 2200MW. Currently power imports stand at around 400 MW.

How much money did China Exim Bank give Zimbabwe Power Company?

The injection of US\$38.8 million into the existing plant was one of the conditions precedent for the Zimbabwe Power Company to unlock the US\$535

million project funding from China Exim Bank Facility for the expansion project.

How did ZPC finance Harare Power Station Repowering project?

Furthermore, the Bank also secured a mandate from ZPC to raise US\$11.2 million towards its 15% contribution of the EPC costs plus insurance cover for the Harare Power Station Repowering Project. The project is expected to be funded 85% with a concessional loan amounting to US\$70.2 million from India Exim Bank through the EPC contractor.
